QUALITY POLICY

Pego Srl is engaged in the design of electrical panels, electronic regulation and control systems for refrigeration, air conditioning and humidification systems. Its aim is to constantly pursue the satisfaction of its customers.

Pego Srl endorses the compliance with Laws, Directives, Regulations and product and process standards.

The Pego Srl Policy is based on the following principles:

- To create value for all stakeholders and achieve a competitive advantage for the company.
- To eliminate or minimize risks for people's safety and environmental protection.
- To achieve high performance of the products.
- To pursue continuous improvement of processes and products.
- To inform, educate and train personnel on product quality issues.
- To define and monitor processes to reduce waste.

Pego Srl, in collaboration with the workers and suppliers, undertakes to pursue the objectives that derive from the principles of this policy.

President & Chief Executive Officer Pego S.r.l.
